## Peerless

This district showed unmistakably on the 21st its attitude towards the liquor question the vote being 27 to 4 in favor of the prohibition act.

Rumors are current that the threshers this year expect to charge prices sufficiently high so that it would seem their loss of profits the past adverse season would be made up this season. Many unreliable reports are constantly circulating about the country and it is to be hoped this is one of them as the very likely result of any such short-sighted policy would be that the farmers, either individually or in small groups, would purchase the small combination threshing outfits and keep the profits at home.

Next regular meeting of the Peerless local U. F. A. will be held in the evening, second Friday, the 13, in August, at the Peerless Schoolhouse. This will be a business meeting for discussion of any topics which affect local farmers.

J. E. Goddard and Mrs. C. W. Goddard visited Alderson Tuesday of last week.

Hans G. Hanson has returned from Winkley, Ontario, to harvest his crop of wheat.

Geo. Lewis is back again on the homestead. George has been visiting his old home in Idaho.

Victor Jansson, J. W. Young, Carl Nunnemaker and J. L. Brown made a business trip to Alderson last week.

Mrs. C. W. Goddard arrived home last Sunday after visiting Medicine Hat and her sister near Alderson.

To the farmer who brings in the first load of 1915 grain into Alderson, and reports to the Office, the Alderson News will give a paid up subscription for one year. Don't forget to report to the News Office. Try to win it.

## Ladies Aid Concert

The Ladies Aid of the Methodist Church have every reason to feel of the success of their efforts to entertain in the social function held last Friday evening in the Adams Hall. Mrs. J. G. Roseburg presided over a delightful programme. During the evening Dr. S. F. McEwen gave an instructive ten minute address on the Mosquito. A number were present to hear themselves talked about. The doctor told how in some sections of country the spread of Malaria Fever was directly attributed to the Mosquito pest. He also advised that every precautionary measure possible should be made to cut the mosquito off.

The ladies at the close served a bountiful lunch that was well worth the price of admission itself. The programme as rendered follows.

Instrumental.....Rev. Taylor  
Song.....R. H. Thornton  
Violin and Piano.....J. and G. Gish  
Recitation.....Stella Harrison

Address.....Dr. S. F. McEwen  
Instrumental.....Geo. Beattie  
Reading.....Mrs. Clark  
Solo.....Miss R. Ames  
Accompanist: Rev. Taylor and Mrs. Geo. Beatty, Mrs. Woods.

## Council Meeting

Council met in full session on Monday evening. The Pound Law was finally passed and is now law. Some complaints were received that the assessment was high but council left the question open as to whether a court of Revision would be held. It was decided to borrow money temporarily from the Union Bank to pay expenses in connection with the recent work on the streets.

## Concert and Dance

The Grand Harvest Entertainment and dance as given by the Women's Auxiliary of St. Mary's Church the Adams Pailors last evening was a decided success. George Beatty acted as chairman for the concert part in every happy manner and presided over a very enjoyable programme. As is getting to be the usual thing in affairs promoted by the W. A. Suffield went up a good crowd and did great service in assisting on the programme. Mr. Hutchinson of Suffield was perhaps the hit of the evening in his humorous monologues. Of the local talent special mention should be made of the piano-forte work of Miss Wray. Both in her piano solos and in her piano duets with Mrs. Basken, Miss Wray showed a fine knowledge of the instrument. We would like to go through the whole programme and compliment each and every one but presiding is right at hand and time and space will not permit. The music for the dance which drew a fine crowd of its own was supplied by Mr. and Mrs. Crocker and Mesdames Basken and Cotter. Last night the ladies served a fine lunch. As the result of the evening the funds of the W. A. were increased by about \$30. We submit the following programme.

## "W. A."

The best attended meeting of the "W. A." this year, was held last Wednesday afternoon at Pleasant View Farm, the residence of Mrs. Guy Hamilton, where twenty-five sat down to afternoon tea, after a good afternoon of sewing and a very pleasant drive.

The regular monthly business meeting combined with sewing will be held next Wednesday afternoon Aug. 11th, at the residence of Mrs. W. M. Cotter.

# FEED THE HORSES

MANY THOUSANDS OF ACRES ARE YET UNSETTLED

In the Peace River District alone there are 25,000 Acres of Splendid Wheat and Mixed Farming Lands, Most of Which are as yet Unoccupied

Back to the land! For a goodly number of years throughout the Empire and beyond, Canada's editorial writer has been devoting profitable rivers of ink to the senseless fight of the machine. Bankers, business men, money magnates and all those who realize that a nation's wealth depends upon the farmer, have taken up and returned, this cry.

It is, though, all of varied Boreas, Great Britain, the United States, have sent large bodies of immigrants in numbers ever increasing year by year. Western Canada still has the most fertile soil, the most fertile soil of the world. Of this unoccupied territory one of the greatest stretches is the Peace River District. Within its confines every acre is capable of producing a bumper crop of wheat, and child from battered, beleaguered Britain might find a home and there a man could own a quantity of land that, compared in area with the former holdings, would seem to him stupendous.

In addition to the demand of back the land a protest has been raised recently by economists who point out the prevalence of wheat mining which has long marked the three prairie provinces. The further west the prevalence of wheat mining which has long marked the three prairie provinces. The further west the prevalence of wheat mining which has long marked the three prairie provinces.

The district of the Peace comprises a tract of over 25,000 acres of land through which runs the Peace River, the largest river in the west, and the most fertile soil of the world. The district is bounded on the north by the Peace River, on the south by the Peace River, on the east by the Peace River, and on the west by the Peace River.

The outbreak of the European war has caused millions of men to leave their ordinary callings has terribly depleted the numbers of the agricultural laborers upon that continent. And Canada's burned and battle-scarred and unknown fields mark the lands at war. So that Canada, as never before, had open to her the possibility of a market which will accept the products from every acre of her soil.

With this fact in view the possibilities of the land of the Peace are worthy of examination. In the last few years wheat with as high an average as forty-five bushels to the acre has been grown in the Peace River District. The Peace River District is a fertile land, and the Peace River District is a fertile land.

## Germany's Misfortune

Has a Poor Excuse for Offer For of Her Wrong Doings  
It is Germany's misfortune that her complaints are always put forward in a biased and distorted manner. She does not carry the effect of sincerity. When they wished to justify the invasion of Belgium, they said that Belgium was a neutral country. When they wished to justify the invasion of France, they said that France was a neutral country. When they wished to justify the invasion of Poland, they said that Poland was a neutral country.

## Humane Methods

Britain Hesitates to Make Use of Deadly Explosives  
So Germany's military authorities have been attacked for not making use of gases against the British. But the British authorities have been attacked for not making use of gases against the British.

# How it Feels to Face Death

Soldiers' Sensations Before the Advance is Graphically Described

A soldier's sensations while awaiting the advance of his comrades is graphically described in a letter from a soldier in the front line. The letter describes the feelings of the soldier as he waits for the advance, and the feelings of the soldier as he faces death.

At last a call is called. Perhaps the men are hidden in specially prepared trenches, or if that is impossible they take what concealment they can in the open. The soldier's feelings are described as he waits for the advance, and the feelings of the soldier as he faces death.

# HOW GERMAN WAS FORCED TO PAY HEAVY PRICE FOR TREACHERY

Long Cherished Ambition of the Kaiser to Secure the Mastery of the Seas, and the Futility Means He Adopted to Accomplish

His Worthy Object is now Interesting History

A battle was in progress between Britain and Germany, long before the great war was declared, a battle of wits. One victory was scored in London ten years ago, the result of which was ever long seen. The battle was a battle of wits, and the result was a battle of wits.

When, with the advent of Lord Fisher to the Admiralty, Great Britain decided on the construction of the first dreadnought, the news caused great excitement at Berlin. The Kaiser, and often declared his determination to secure control of the seas, and how could this be done if Britain kept ahead all the time? Orders were given to the chief German shipyard to build these new battleships at all costs.

The German secret service system was the outgrowth of the system in the world. Its clearest agent was sent to work in London, and he was ordered to strike up an acquaintance with the man who was building the ships at all costs.

The smart spy was an adept at the game, and employed all his art to improve on his acquaintance, all the while the German secret service was working to get the ships at all costs. The German secret service was working to get the ships at all costs.

THIS district will show up this year as a crop district probably better than any other in Western Canada. By our exchanges we notice that several districts in Alberta have suffered severely from hail and expect to harvest only an average grain crop. It will exemplify the oft repeated statement that the man who stays with a district through good and bad years will come out on top at last. The merchants are already speaking of increased trade over the counters. The Lumber yards are almost jubilant over the stock they are moving. Saturday and Monday were particularly good days for trade in town. They are forerunners of many good days to come. All homesteaders who trade in town all assured fair and equitable treatment at the hands of the local trades peoples.

THE News learns that a movement will soon be started in town to raise a fund to assist in supplying machine guns for the Canadians. This is a laudable enterprise and we hope to publish more particulars latter. The machines cost in the neighborhood of \$800.00. Alderson should do its share.

## By-Law

Rural Municipality of Sunny  
South, No. 123.

Public notice is hereby given that there has been introduced in the Council of Rural Municipality of Sunny South, No. 123, a by-law, of which the following is a short synopsis:

A by-law to restrain and regulate the running of large and trespassing animals.

In this by-law unless the context otherwise requires:

(a) "Animal" means any head of cattle, horse, sheep, goat or swine.

(b) "At large" means without being under the control of the owner or possessor, either by being securely tethered or under direct or continual charge of a herder, or by confinement within any building, fence or other enclosure.

(c) "Resident" in this by-law includes any person living in the municipality or any person occupying any land in the municipality.

(d) "Lawful fence" means such as defined in this by-law as follows: [a] Any substantial fence not less than 3 1/2 feet high, consisting of not less than two barbed wires on posts two rods apart, the lower wire to be not more than two feet from the ground. Provided, however, that any line fence between neighbors shall consist of not less than three barbed wires on posts two rods apart, the lower wire to be not more than 18 inches from the ground and the upper wire not less than four feet from the ground.

[b] Any fence immediately surrounding stacks of hay or grain shall be built in accordance with one of the definitions of lawful fence as laid down in the Fence Ordinance and shall be built at least twenty feet from such stacks.

### II.

It shall not be lawful for animals to run at large at any time of the year on any highway; land or premises within the limits of the municipality.

### III.

Any animal found at large or trespassing upon any lands or premises enclosed by a lawful fence, contrary to the provisions of this by-law shall be liable to be impounded and sold according to the provisions of this by-law unless the damages, expenses and fees be sooner paid. But no person shall be liable for damages caused by any animals at large unless the lands or premises trespassed upon are enclosed by a lawful fence.

### IV.

Any person who leaves open any gate or lets down any bars or makes a gap in any fence for the purpose of permitting any animal to trespass or who otherwise causes any animal to trespass, shall be guilty of an infraction of this by-law.

A copy of the by-law may be seen in each of the following places: Alderson and Suffield postoffices; Pearsonville and Chub schoolhouses, northeast corner of section 22-13-9; southeast corner of section 28-13-9; northwest corner of section 31-13-9; southeast corner of northeast quarter of 33-14-10; northwest corner section 12-13-10; northeast corner of section 30-13-10; northwest corner section 35-14-10; northeast corner of section 9-15-10; southwest corner of section 28-15-10; northwest corner of southwest quarter of section 20-15-10; and at the office of the secretary, and further that unless within thirty days from the publication of this notice at least ten residents electors of the municipality petition the council to submit this by-law to the vote of the resident electors the council will proceed to pass the same.

## Buy an Irrigated Farm

FROM THE CANADIAN PACIFIC RAILWAY

**BECAUSE**  
Irrigation makes the farmer independent of rain and insures good crops, not occasionally, but every year. Irrigation makes possible the successful culture of alfalfa, the king of fodders, which insures best returns in dairying and mixed farming.

Irrigation means intensive farming and close settlement with all the advantages of a densely populated agricultural community.

Irrigation in the Canadian Pacific Railway Irrigation Block is no longer an experiment, the year 1914 having absolutely demonstrated its success wherever intelligently applied. You can buy irrigated land from the Canadian Pacific Railway at prices ranging from \$35 to \$75 per acre, with twenty years to pay and the privilege of a loan of \$2,000.00 for improvements (6% interest); no principal payment at the end of first and second years, and no water rental for first year. Assistance is also given in supplying stock in approved instances.

This is the most liberal offer of irrigated farm land on record

## SHOP TALK No. 2

**T**HIS week in this space we drew attention to the value of using the News columns for advertising. This was our method of advertising. It pays. A number of houses are going to sign contracts shortly that will be to our own interest and to their own. Firms outside of town have on various occasions applied for space in our columns. Honestly now Mr. Merchant if you have made your livelihood by selling space would you refuse these when you were possibly only receiving half hearted support from the local merchants? Think it over and give the local paper fair support.

Turn your attention to your printing needs. Look at your printed stationery. The chances are that it does not even carry the correct name of the town. We would like to give you the names of the enterprising firms that adopted Alderson stationery. They are certainly leaders in their respective fields. It must be a certain sense of satisfaction to them when they sit down to type a letter to a wholesale house that they do not have to reach for a cheap half blurred stamp and blot out the name of the old town. What kind of an idea will the wholesaler get from that kind of stationery. Your monthly statements to customers will also look better if printed in an up-to-date way by the News. We have the equipment. Friday and Saturday are job printing days. We solicit your next order.

Next week in this space we will talk to subscribers.
